PRIMARY CARER'S & SPORTMEDIC'S IN YOUR REGION

The NetballSmart and LeagueSmart, SportMedic Accreditation programme has up-skilled, educated and provided knowledge to a huge number of our netball community from parents to coaches to managers to fitness advisers, at all levels of netball from junior, grass roots to secondary school, age group, club and higher.

The SportMedic Accreditation programme has given these participants the knowledge to provide great player welfare, correct injury management, correct skills and knowledge for strapping and first aid, to facilitate well structured warm-ups and cool downs and to be confident in leading and developing our netballers throughout the season.

With the up-coming netball tournaments and events that are just around the corner a key role with your team is that of the Primary Care. This role should ideally be filled by a qualified Physiotherapist or SportMedic. Having a Primary Carer that is knowledgeable and capable is key to correct injury prevention, management, rehabilitation and player welfare throughout these tournaments.

Below is a list of qualified SportMedics in your Region that have completed the SportMedic Accreditation, to date. They may be willing to assist your team during tournaments by undertaking the Primary Care role.

North Region
